COLDS.

I regard my COLD CURE as more valuable than a life insurance policy. It not only cures colds in the head, colds in the lungs, colds in the bones, but it wards off dangerous diseases such as grippe, diphtheria, pneumonia, and consumption.—HUNYON.

Munyon's Rheumatism Cure seldom fails to relieve in one to three hours, and cures in a few days.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach trouble.

Munyon's Cough Cure stops coughs, night sweats, always soothes and speedsily heals the lungs.

Munyon's Kidney Cure quickly cures pains in the back, joints or groin, and all forms of kidney disease.

Munyon's Asthma Cure restores lost power to weak men. All the cures are 25 cents at any drug store.

Munyon's Guide to Health should be in the hands of every mother. It will help them to know the symptoms of every disease and tell them the proper treatment. Sent free to any address.

Munyon, New York and Philadelphia.

MUNYON'S INHALER CURE CATARRH.

FIXES RESPONSIBILITY

VERDICT OF JURY IN CASE OF JAS. A. ACTON.

Death Attributed to Negligence on Part of United States Electric Lighting Company.

The jury of inquest summoned to pass upon the death of James Arthur Acton, whose body was found in the cable closet of the United States Electric Lighting Company yesterday morning, as published in The Star, convened at the first precinct station today and heard the testimony of several witnesses. The jury returned a verdict holding the company responsible.

After stating the young man's death was caused by his coming in contact with a live wire of the company, the verdict concludes: "We believe that the death of James Arthur Acton was due to the negligence of the United States Electric Lighting Company."

The funeral of the young man will take place from the home of his mother, No. 1421 D street, northwest, tomorrow afternoon. The body will be interred at Congressional cemetery.

Policeman's Statement.

Policeman L. W. Charlton testified that he saw the body of the deceased on the ground several feet from where it was found yesterday morning. He was informed by Policeman Emmert that the body had been removed from the little frame structure. This man, he knew, appeared as if he had been burned.

Witness was informed that the man's hands were on the wire when his dead body was found. One side of his face was very much discolored.

Jesse Lewis, colored, informed the jury that he saw the body of the young man in the frame structure. Witness did not know whether the man was drunk or asleep, and he did not stop. There was nobody about the closet at the time.

Arthur Trussell, 1312 Pennsylvania avenue northwest, testified to seeing the body taken from the closet by Policeman Emmert. Witness had seen Acton several times picking up wood about Barber & Ross' mill, and had also seen him about Anthony's cigar stand on Sunday. He knew nothing of the young man's mental condition.

Alexander Moulton, colored, testified that there were three men about the body when he reached the scene of the fatal accident. The body was then partly in the closet and partly out, with the hands resting on the electric cables. Witness is janitor of the first police station. He reported the finding of the body to Policeman Emmert. The door of the closet was wide open.

Others Give Testimony.

William Marshall, colored, told the jury he saw Acton's body yesterday morning in the closet. The head and arms were in the structure while his legs were outside.

Joseph Nightingale gave similar testimony. He was one of the first to see the body. It was then about ten minutes after 6 o'clock.

When witness saw the body he inquired of a colored man nearby what was the matter with the man. The latter said he did not know, and witness upon examining the body found life was extinct. One or two weeks ago he stated he saw a man working in the closet. Witness said he had seen the closet door wide open a number of times.

Policeman Jacobson testified that he had done duty at times in the vicinity of the plant of the United States Electric Lighting Company. He had seen the door a number of times, but had never examined it. Witness expressed the belief that the structure is outside the building line.

Policeman Catts described the structure of the closet, and said he saw the door unlocked about two months ago. He looked in to see what was there. Witness said he did not consider the place dangerous.

The insulation, he thought, was nearly perfect, and he thought he would be willing to put his hand on the wire. Witness said the structure was locked since the summer of 1899. He was told that wire had been taken from there before he entered the employ of the company. Witness thought the wire was charged with about 350 volts, which was dangerous. Under certain conditions, he said, 100 volts would cause death. He saw no electric wires. This closed the testimony and the case was submitted.

PLOT TO KILL MONARCHS.

Discovered by the Police of a Town in Argentina.

A dispatch to the New York Herald from Buenos Ayres, Argentina, via Galveston, Tex., Thursday, says: Police of the town of Rosario, in the province of Santa Fe, have seized papers which prove that a plot against the Czar of Russia, the King of Germany, the Czar of Austria, the King and Queen of Italy and the Count of Tuscany was recently laid in Paterson, N. J.

Investigation was begun here on the receipt of dispatches from Berlin, announcing that the police of that city had discovered a plot against the life of Emperor William. These dispatches stated that anarchists had held communication with his friends, and then sailed for Germany, where he was arrested before he could execute his orders.

Whether any specific action has been taken to carry out the resolution of the Paterson society for the assassination of the Czar of Russia and the Italian rulers, the police will not say. The German, Italian and Russian legations, however, have been placed in possession of the facts.

Proposed Changes in By-Laws.

A meeting of the members of the National Geographic Society for the consideration of certain proposed changes in the by-laws will be held in the hall of the Cosmos Club tonight (Friday) at 8 p.m.

Choice of these values

up to \$8 for.....

\$4.65

Rally for the Wind-Up!

You must come tomorrow, gentlemen, if you intend to take advantage of this most important sale of Suits at \$8.50. There won't be enough left at closing time then to talk about.

But there's nothing we can talk so strongly about now. We urge you on your own behalf. This was a purchase we made because it would bring you exceptional opportunity—not because our stock needed the Suits.

They are genuine \$12.50, \$13.50 and \$15 values—in most desirable styles—thoroughly well made and trimmed, and we can offer the choice—which is a rare privilege, especially at the beginning of the season for

\$8.50.

Sizes up to 44—and every suit guaranteed.

A Rich Millinery Treat for Tomorrow.

(Second Floor, East.)

20 Handsomely Trimmed Hats that are positively worth \$10, \$12 and \$14, for choice at **\$6.95**

These in addition to the regular showing at \$4.95 and \$6.95—the two puzzles to every milliner in Washington. The French name in a Hat isn't worth half the price—and the French Hat isn't worth twice the actual intrinsic value. Our millinery chief has equalized these conditions—producing the best effects at consistent prices. That's what the \$4.95 and \$6.95 grades are. \$7 to \$9 values.

Girls' Pretty Hats.

(Second Floor, East.)

A big and special assortment of Girls' Stylish Hats, trimmed with ribbons, flowers and foliage; original designs, and any milliner here will ask you \$5 to duplicate them. Choice **\$2.95**
